

Notice of Electric Reliability Organization Tariff Filing

The REGULATORY COMMISSION OF ALASKA (Commission) gives notice that the Railbelt Reliability Council (RRC) has filed TE1-9001, an initial tariff and initial annual surcharge. The proposed tariff includes the terms, conditions, and schedules under which the RRC will provide open access transmission and interconnection and transmission cost recovery. Additionally, the proposed tariff provides the terms and conditions under which the RRC will apply reliability standards, standards for open access transmission and interconnection, and Railbelt integrated resource planning. The RRC requests that the proposed tariff become effective on or after May 31, 2023.

With TE1-9001, the RRC filed a modification to the initial budget, which is currently suspended for investigation in Docket No. E-22-002. The budget is used to calculate a tariffed annual surcharge that funds the RRC's operations. This surcharge is allocated to the various member electric utilities based on net energy for load and each member electric utility may implement a separate charge on its bill to retail customers to collect the surcharge amount. The surcharge proposed with TE1-9001, as allocated to the member utilities, is shown in the table below.

Load-Serving Entity	Annual Surcharge	Monthly Invoice Amount
Chugach Electric Association, Inc.	\$655,423.63	\$54,618.64
Golden Valley Electric Association, Inc.	\$407,785.62	\$33,982.13
Homer Electric Association, Inc.	\$157,277.26	\$13,106.44
Matanuska Electric Association, Inc.	\$258,624.33	\$21,552.03
City of Seward d/b/a Seward Electric System	\$20,324.16	\$1,693.68
